

# ORGANIC RECYCLING SOLUTION FOR A SUSTAINABLE COLORADO

## AI ORGANICS LUBE TECH / ENTRY LEVEL MECHANIC

Mechanical and heavy equipment service knowledge: 1 year (Preferred)  
Full Time position is available at our Sheridan facility in southwest Denver.

### Representative Responsibilities:

Mechanical and Heavy Equipment service knowledge: 1 year (Preferred)  
The Lube Tech performs preventive maintenance of trucks and site equipment, as well as replaces work parts as required and authorized. Perform PM inspections on site trucks and equipment. Inspect trucks and equipment for structural integrity and other potential safety and maintenance problems during routine services. Repair or replace worn parts not requiring major mechanical work. Identify and report to supervisor any major problems requiring mechanical attention. Inspect primary and auxiliary operating systems for loose and worn parts, hydraulic systems for faulty cylinders, hoses, or fittings, and air systems during routine services. Perform hourly services and maintenance as required and assigned.

### Education and/or Training:

- Experience Requirement: Minimum one (1) year of experience in the maintenance of gasoline, diesel powered equipment in a repair shop or fleet department.
- Education/Experience Equivalency: Additional appropriate education may be substituted for the minimum experience requirements including trade school or equivalent.
- License/Certifications: Requires a valid Driver's License at the time of application. If you have any certifications, related to this position, please provide with your resume.
- Own tools required and reliable transportation.

Resume or Application & CLEAN MVR required. Send to [jobs@a1organics.com](mailto:jobs@a1organics.com).
